iDCS 16
Simple, Reliable, Digital Communications

Samsung's iDCS 16 is a cost-effective, feature-rich communications platform for your business. Offering your choice of DS 24D or iDCS Keyset models, this powerful system has capabilities commonly found in larger systems.

Caller ID Name and Number compatible on standard telephones, the iDCS 16 provides valuable information to your fingertips. The system offers you additional attributes such as high reliability, ease of installation, and protection for your investment by allowing you to effortlessly migrate iDCS Keysets as your business grows. Add an SVMi Voice Processing Platform and see how the advanced voicemail and Auto Attendant capabilities help your business run efficiently. Use Samsung's iDCS SLiM mobility solution to free your employees from their desk and enjoy all the benefits of going wireless. Best of all, the iDCS 16 is as easy to use as it is efficient.

Make the smart choice and unleash the power and flexibility of the iDCS 16. It will keep your customers satisfied, your company running smoothly.
